

## **University of Bedfordshire**

The University of Bedfordshire helps businesses to keep ahead through a range of services and actively works with organisations to improve competitiveness through various Government supported initiatives. Through the University's Knowledge Hub, businesses can access leading experts and researchers who work with organisations on diverse projects including one-to-one consultancy, business start-up/growth support with a dedicated Innovation Director, providing businesses with a one-stop shop service for enterprise, high-calibre graduates through short term placements and longer term cutting-edge research, training and development including bespoke programmes. The Knowledge Network, providing opportunities to meet contacts, and attend seminars.
